Transforming CONUS and Theater Logistics While at War

BG Kevin Leonard

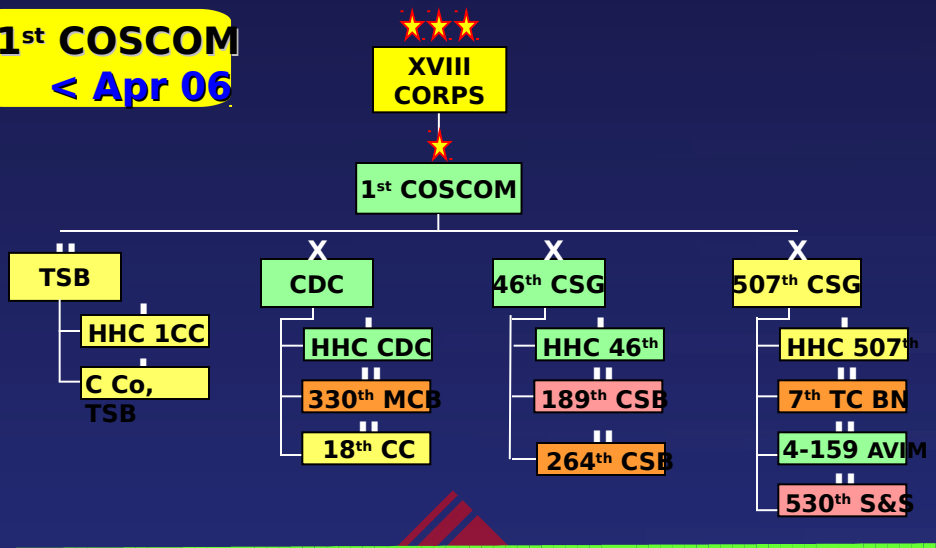
Commander,
1st Sustainment
Command (Theater)
Fort Bragg, NC

Unclassified / FOUO

A

Transforming 1st COSCOM

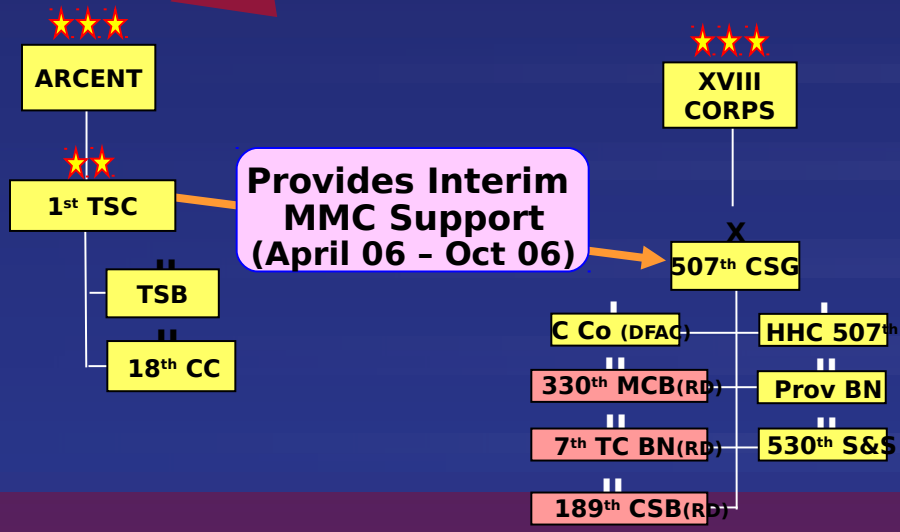
1st COSCOM < Apr 06



Key Points

- TSC to provide Interim Log oversight of FBNC CSS spt to include Materiel Mgmt CTASC support
- 82nd SB committed to OIF, Fall 06
- 507th CSG provides Log C2 for FBNC log units unti 82nd SB redeploys/assume Log C2

1st TSC > Apr 06



Legend

- = Deployed
- = Scheduled to Depl
- = Unscheduled
- = Inactivating

Theater Sustainment Command

1st TSC Mission

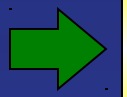
1st TSC provides Joint C2 of logistics and select forces responsible for conducting Combat Service Support in support of Combat Operations across the Full Spectrum of Conflict; CJRSO; redeployment of rotating forces; and sustainment of operating forces in the CENTCOM AOR for all operations and exercises

	Off / WO/ Enl // Total
TSC MTOE Summary	153 / 29 / 276 // 458
AC Summary	101 / 22 / 203 // 326
RC Summary	052 / 07 / 073 // 132

Concept of Operation

- **Step I: Transition to a TSC Headquarters**
  - *Completed APR 18 2006*
- **Step II: Train as a TSC Headquarters**
  - *APR 18 2006 until Deployment*
- **Step III: Deploy as a TSC Headquarters**
  - *Deployment (TOA JUL 07)*
- **Step IV: Sustain a forward presence in *CENTCOM AOR***
  - *Deployment until Mission Complete*

All Steps focused on



- **Single Army Log HQs for Army, *JFC, RCC* or**
- **Regionally focused; globally employable**
- ***End to end distribution (2 way)***
- **Materiel Manager for regionally assigned forces**

1st Sustainment Command (Theater) Vision, Mission, JMETLs

1st TSC Vision

Be the Army's #1 Theater Sustainment Command; Globally Employable; Responsive to the Warfighter; Providing the Theater's Single Logistics C2 and Sustainment ISO of all CENTCOM Operations and Exercises

1st TSC Mission

1st TSC provides Joint C2 of logistics and select forces responsible for conducting Combat Service Support in support of Combat Operations across the Full Spectrum of Conflict; CJRSO; redeployment of rotating forces; and sustainment of operating forces in the CENTCOM AOR for all operations and exercises

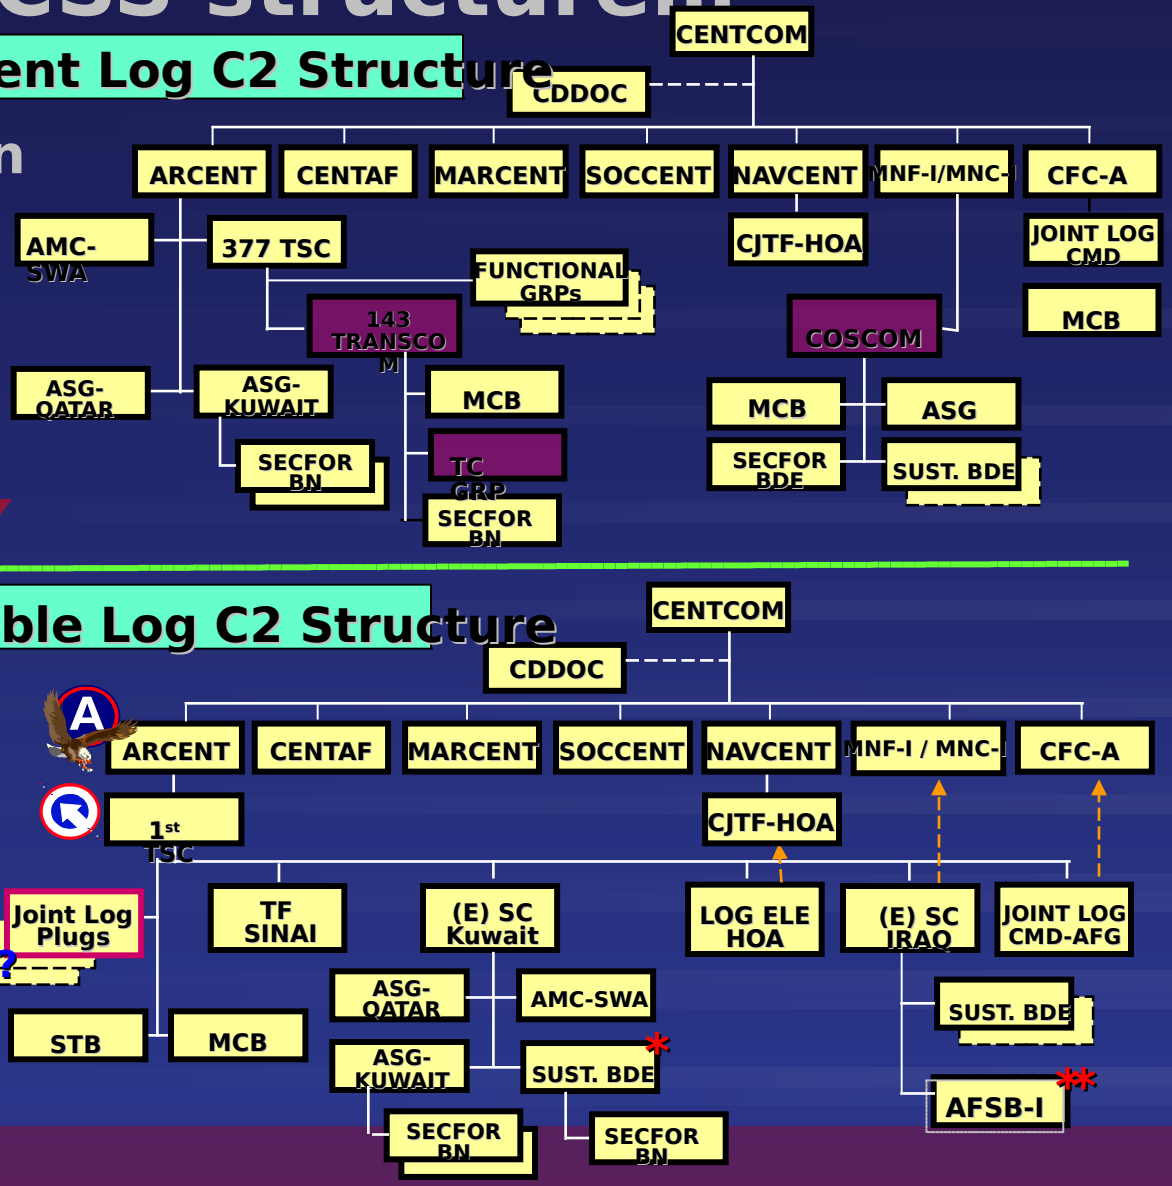
1st TSC JMETL

- C2 Sustainment Operations
  ISO of all forces in the CENTCOM AOR
- C2 CJRSO and redeployment
  of forces into the CENTCOM AOR
- Coordinate Force Protection
  of Sustainment Operations
  in the CENTCOM AOR
- Establish flexible and responsive CPs ISO of all CENTCOM Operations and Exercises

Transforming the CENTCOM AOR CSS structure…

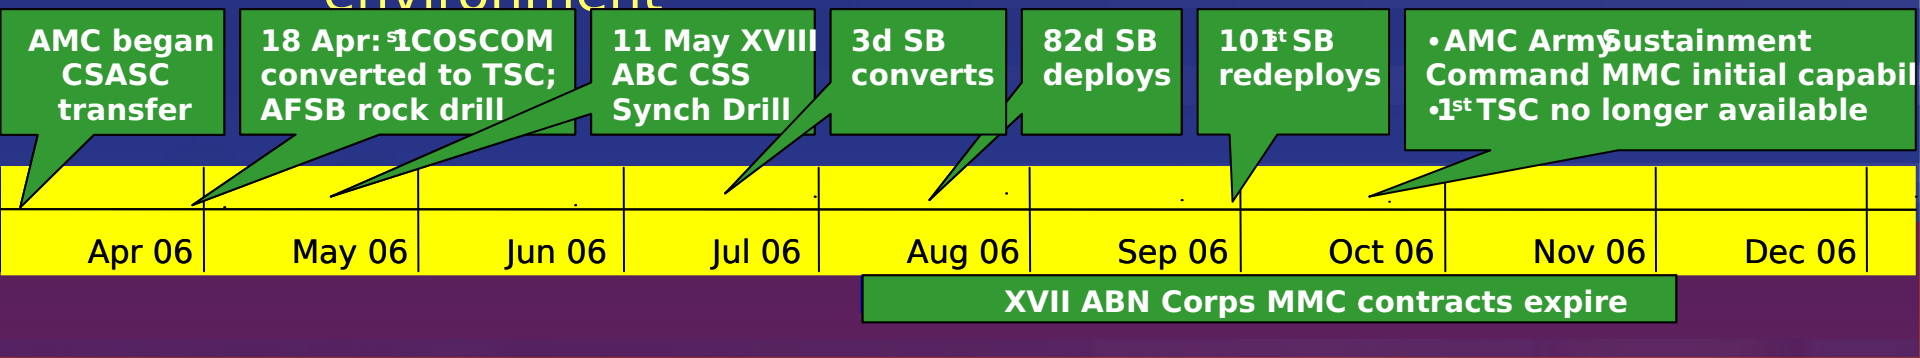
- Develop and Phase-In the Future Log C2 Structure
- Develop Theater Concept of Support
- Promote Emerging Doctrine and TSC Plan
- Phase-in TSC C2 across CENTCOM AOR: - With MNF-I
  - With CFC-A
  - With NAVCENT

What is Log C2 for the Theater?
Potential Decision Brief to CENTCOM & MNF-I CGs Jun/Jul 06



18 April 2006 - A Corps without a COSCOM….

- Planning process to develop transition plan and concepts of support to FBNC and Corps units
- XVIII Airborne Corps CSS Synchronization Drill
  - Purpose (CONUS and deployed environments):
    - understand command and control of logistics units
    - understand how logistics priorities are set and influenced to support operations
    - understand how materiel management is provided to operational headquarters
    - identify how logistics will support commander's operational requirements in a partially transformed environment



11 May 06
Ft Bragg CSS Synchronization Drill
Looking for Seams & Gaps

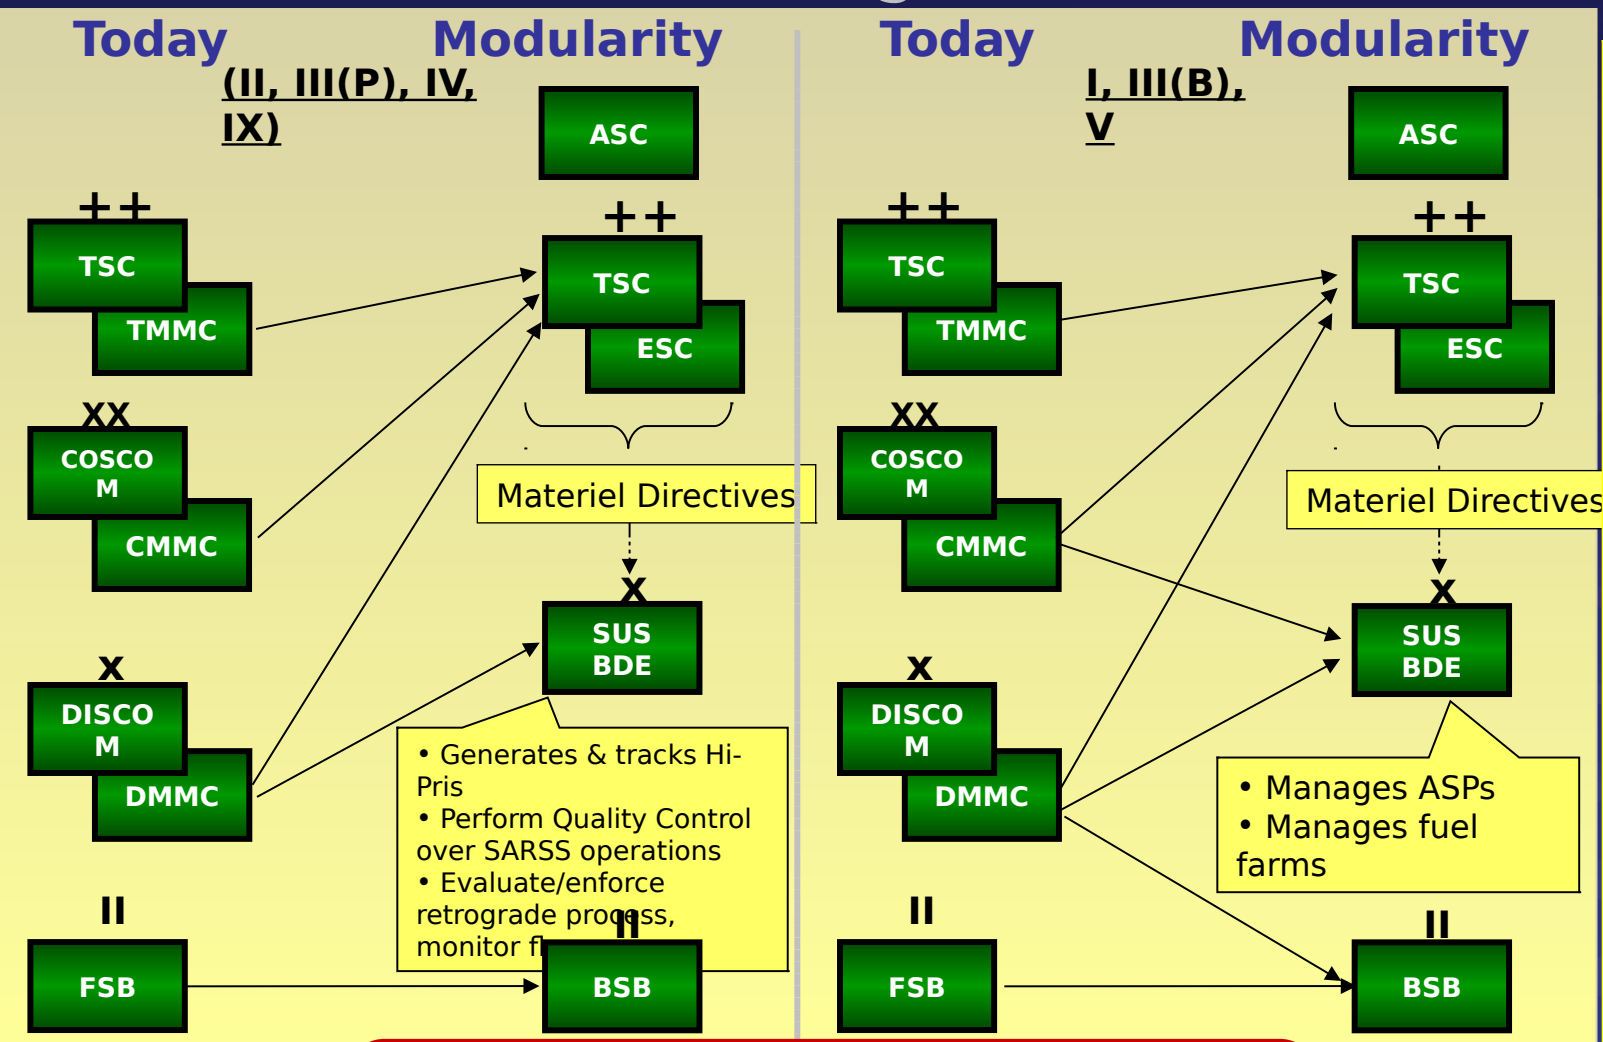
- Army Campaign Plan DP 78 (DA G4 / FORSCOM)
- CSS Transformation concepts (CASCOM)
- BCS3 and LCOP capabilities and fielding (CASCOM)
- Interim CONUS materiel management (XVIII ABN Corps)
- ASC Roles And Responsibilities (ASC)
- ASC Timeline And Mitigation Strategies (ASC)
- Logistics Information Tools Currently Available (LOGSA)
- Support To CONUS and Installation Operations (IMA)

Points to Ponder….

- 1st TSC will C2 Sustainment Operations ISO of all forces in the CENTCOM AOR - potential JLC.
- How do Div/Corps commanders ensure the logistics plans and assets are nested, synchronized and arrayed with the maneuver units both in the AOR & CONUS?
- Is aligning SC(E)s w/habitual users the way ahead?

Unclassified / FOUO

Materiel Management Macro Function Migration



- DMC functions exist at all levels
- Staff size varies with HQ level
- CTASC Endstate:
  - Army Sustainment Cmd (ASC) supports CONUS forces
  - TSC supports deployed forces; TSC may be CONUS based

Consolidating functions into a smaller organization…

….but we still need the enablers.

Example - Log Automation:

- PBUSE is the only new system.
